License/Certificate Renewal :

Licenses expire every two years from the date of licensure. A completed renewal application, accompanied by the required fee and documentation of the required continuing education hours, must be submitted to the Board.

Continuing Education Requirements :

All licensed/certified appraisers in the State of Tennessee are required to have 28 hours of continuing education every renewal period. Appraisers are allowed a maximum of 7 hours continuing education credit for approved online courses every renewal period. A course may only be taken for continuing education credit once every 5 years. This includes courses with substantially similar subject matter, whether or not the course has the same name. An exception to this policy is the USPAP course. Licensees may obtain continuing education credit for a USPAP course taken more than once, provided that the licensee takes the course no more than one (1) time during the two (2) year renewal cycle. Because all continuing education needs to be received in this office 30 days prior to an appraiser's expiration date, any continuing education taken within that 30-day window that was not used towards the current renewal period may be held and credited towards the appraiser's next renewal period.
